The Honolulu people have to take their theatrical diversions when they can get them. "The earliest I was ever in a theater," says Miss O'Neil. At Honolulu she heard that a relative in the East had left her a substantial legacy. "So you see I had reason to enjoy my call at Honolulu," she said.—Salt Lake Tribune.

A large quantity of gifts and trinkets arrived from the Coast from the Tenneys. An electric Christmas tree lighting apparatus will make the tree brilliant and safe.

Mr. and Mrs. C. W. Chapin, wealthy New Yorkers, arrived on the Manchuria to remain in Honolulu for some time. Mr. Chapin brought a fine automobile with him and lost no time in getting used to the roads. The formal announcement to the public will be made by Mrs. Roosevelt from the White House within a few days. This sets at rest all conjectures and guesses which have kept the gossips of two continents busy for more than a year. There has always been a feeling that Congressman Longworth and Miss Alice were betrothed, but they have guarded their secret closely, and too persistent questioning brought from both of them a plain intimation that it was nobody's business what their plans were.

Congressman Longworth was one of the party with Miss Roosevelt that recently toured the Orient, and it was apparent to all that they were much attached to each other.

A STICKLER FOR PUNCTILIOS.

In many respects, Rear-Admiral Caspar F. Goodrich, commander-in-chief of the Pacific Squadron, is a most progressive officer, but in others he is conservative. He is a stickler for the punctilious ceremonies of the navy, and is particularly jealous of any encroachments upon the navy's domain. During the stay of his flagship, the Chicago, in Portland, at the time of the Fair, he resented the efforts of the revenue cutter officers to ape the navy's methods. In addition to his refusal to return a salute offered by the revenue cutter McCullough, the Admiral went so far as to issue a general order to his officers to the effect that the revenue cutter service, not being a military organization, should receive no calls from his ships. He even, so it is said, directed that his officers should not only pay no calls, official or social, upon the revenue officers, but should not return such calls, if paid first by the latter. As a result, relations between the officers of two services now on this station are, to say the least, not exactly cordial.—The Commodore.
